METADATA PRODUCED BY

Name	Abbreviation	Affiliation	Role
Kenya National Bureau of Statistics	KNBS	State Department of Planning	Collection of data, process and report

DDI DOCUMENT ID  
DDI-KEN-KNBS-FNS-2013-V01

## Sampling

### Sampling Procedure

---

Sampling was undertaken by the Kenya National Bureau of Statistics (KNBS), based on the new National Survey Sample Evaluation Program (NASSEP) V developed in 2012. First level selection of 710 clusters to ensure representation at national, regional and urbanization (urban/rural) were sampled. North Eastern region was omitted from the survey due to security concerns. At the second level of selection, twelve households were selected in each of the sampled clusters. At the final level of selection an individual within the household was selected using the KISH grid approach to randomly select a respondent aged 16 years and above
