Overview

ABSTRACT

Isiolo county is among the arid and semi-arid lands of Kenya covering 35,350km² with an estimated population of 283,139 (Source: KNBS, Nov 2021). It is divided into 3 sub-counties; Isiolo Central, Garbatulla and Merti. In addition Cherab has been gazetted to become a sub-county [31/2/2022]. Isiolo has 3 main livelihood zones; Pastoral, Agro-pastoral and firewood/waged labour representing 67%, 26% and 7% respectively. The SMART survey was conducted in the whole county. The main objective of the survey was to determine the prevalence of malnutrition among children aged 6 - 59 months and women of reproductive age (15-49 Years) in Isiolo County. Specifically, the survey aimed at determining the nutrition status of children 6 to 59 months, the nutritional status of women of reproductive age (15-49 years) based on maternal mid upper arm circumference, immunization coverage; measles (9-59 months), OPV1/3 and Vitamin A supplementation for children aged 6-59months. The survey also was meant to determine deworming coverage for children aged 12-59 months, the prevalence of common illnesses as well as assess water, sanitation and hygiene (WASH) practices and the prevailing food security situation in the County.
