## **Consent 1: Household Questionnaire Consent**

***[Interviewer: The statement should be read to the most responsible/respected adult ages 18 years and above (household head) or emancipated individual, i.e., persons with no parent/guardian or not living with their parent/guardian, who will respond to the household questionnaire.]***

***Note: The respondent to the Household questionnaire need not be within the stipulated age bracket for the adult questionnaire (18-64 years).***

***Throughout the process of obtaining consent, it is important that you are patient and allow the respondent to ask questions and to consider the decision. Never rush or otherwise pressure the respondent to give consent. [Provide a copy of this consent script to all eligible persons ages 15-64]***

Hello, my name is \_\_\_\_\_ and I am working with the Ministry of Health and Public Sanitation. We are conducting a survey on HIV/AIDS, with National AIDS and STD Control Program and the National Public Health Laboratory of the Ministry of Health, the Kenya National Bureau of Statistics, the University of California San Francisco and the United States Centers for Disease Control and Prevention. This study will help the us develop better health services for Kenyans. We would very much appreciate if you could take part in this survey. Approximately 10,475 households with about 24,000 adults and 8,000 children will be taking part in this survey.

As part of this survey, we would like to ask some questions about your family. You will be asked questions about your family; such as how many people live here, their relationship to you and others in the family, their sex and age. All the survey information will be confidentially recorded and stored in a small computer as we collect the data. The interview will take up to 30 minutes. All of the answers you give will be private and will not be shown to anyone outside of the study team.

Being in the study is your choice.

Please take your time to make your decision about taking part. Before you make your decision, is important that you know the following:

- The study will only include people who choose to take part.
- Your participation in this study is up to you. No one can make you participate if you do not want to.
- You may decide not to answer the questions, or to stop the study at any time. If you do not take part or decide to stop you will not lose any health care services.
- All of the information collected in this survey will be kept private and answers to these questions will not be shared with anyone.
- If there are any questions you don't want to answer, just let me know and I will go on to the next question; or you can stop at any time.

### **Risks and Benefits**

If you take part of this survey, the risk to you is small. We may ask you questions that may be uncomfortable to answer. You are free to not answer any questions that you feel are uncomfortable. The information you give us is private but there is a very small chance that someone might share information about you with someone outside the study. However, the benefits of taking part is that the information that you provide to us will be used to improve the health of Kenyans by helping the us develop programs to fight HIV/AIDS and other disease in Kenya.

### **Confidentiality**

What we talk about will be kept private, even among your family. We will keep the records using numbers, not names. We will keep the records at Kenya National Bureau of Statistics (KNBS) and at the National AIDS and STD Control Program (NASCOP). Your name will not appear when we discuss this project. When the results of this study are discussed, we will focus on all answers from the big group so no one will know your answers.

## Consent 1: Household Questionnaire Consent (cont.)

This study is funded by the Government of Kenya, the United States Government, the United Nations, and other partners. There are no costs to you for taking part in this study.

At this time, do you want to ask me anything about the survey? If you have any questions at any time, we want you to ask us.

***[Interviewer: provide the following information to the participant:]***

If you feel that you have been harmed by your participation you should contact the deputy director of the survey (Dr. Davies Kimanga).
